

**Não há articulação entre o membro torácico e o esqueleto axial**

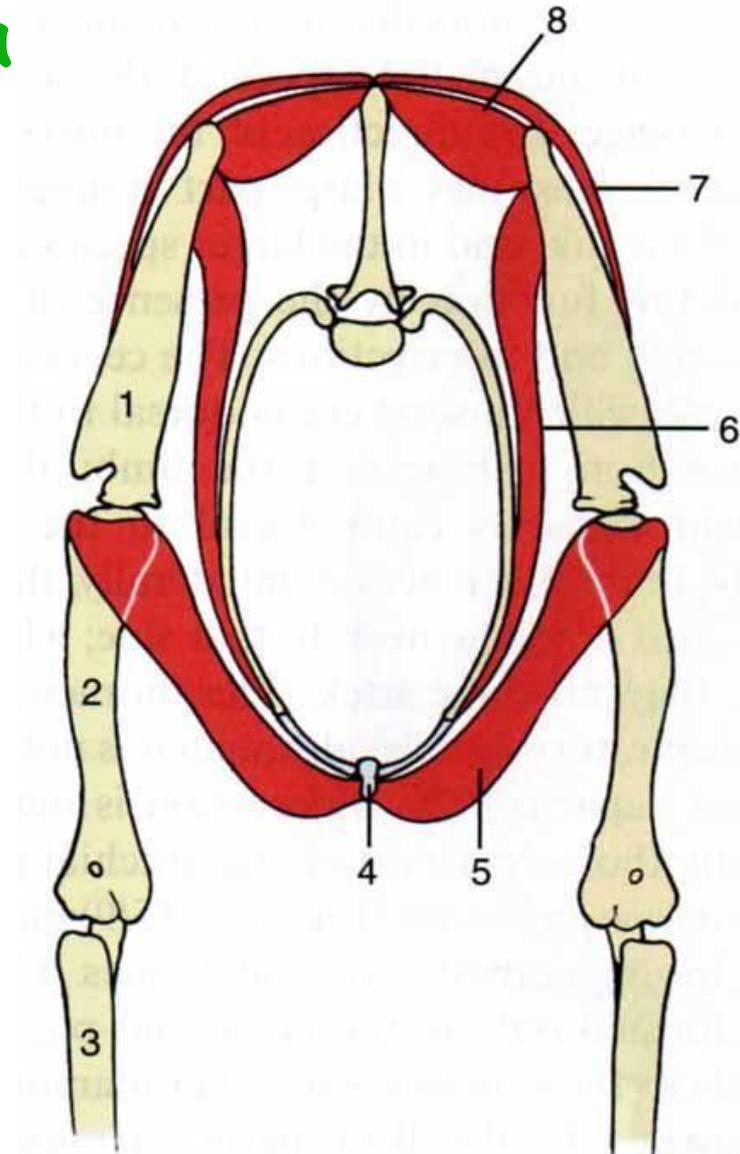

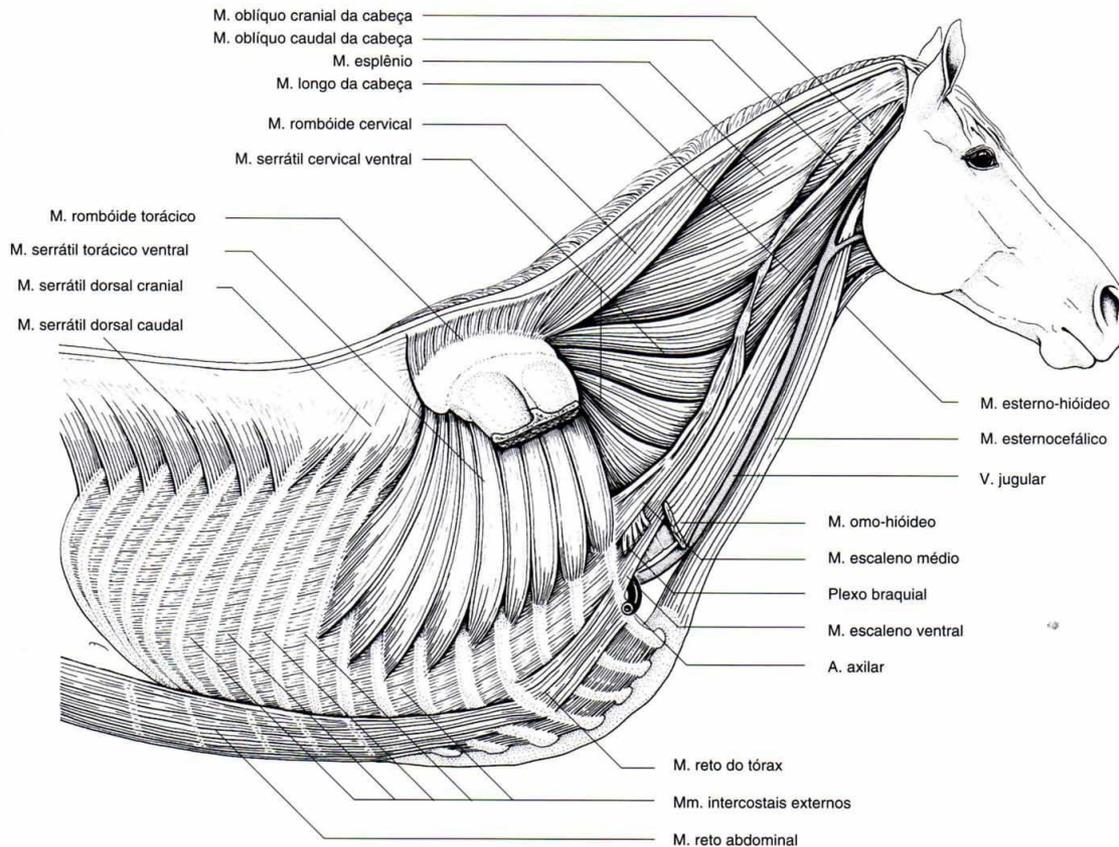

**Membro torácico suporta 3/5 do peso corporal, enquanto o membro pélvico suporta 2/5**

**Sinsarcose**  
**Músculos extrínsecos**

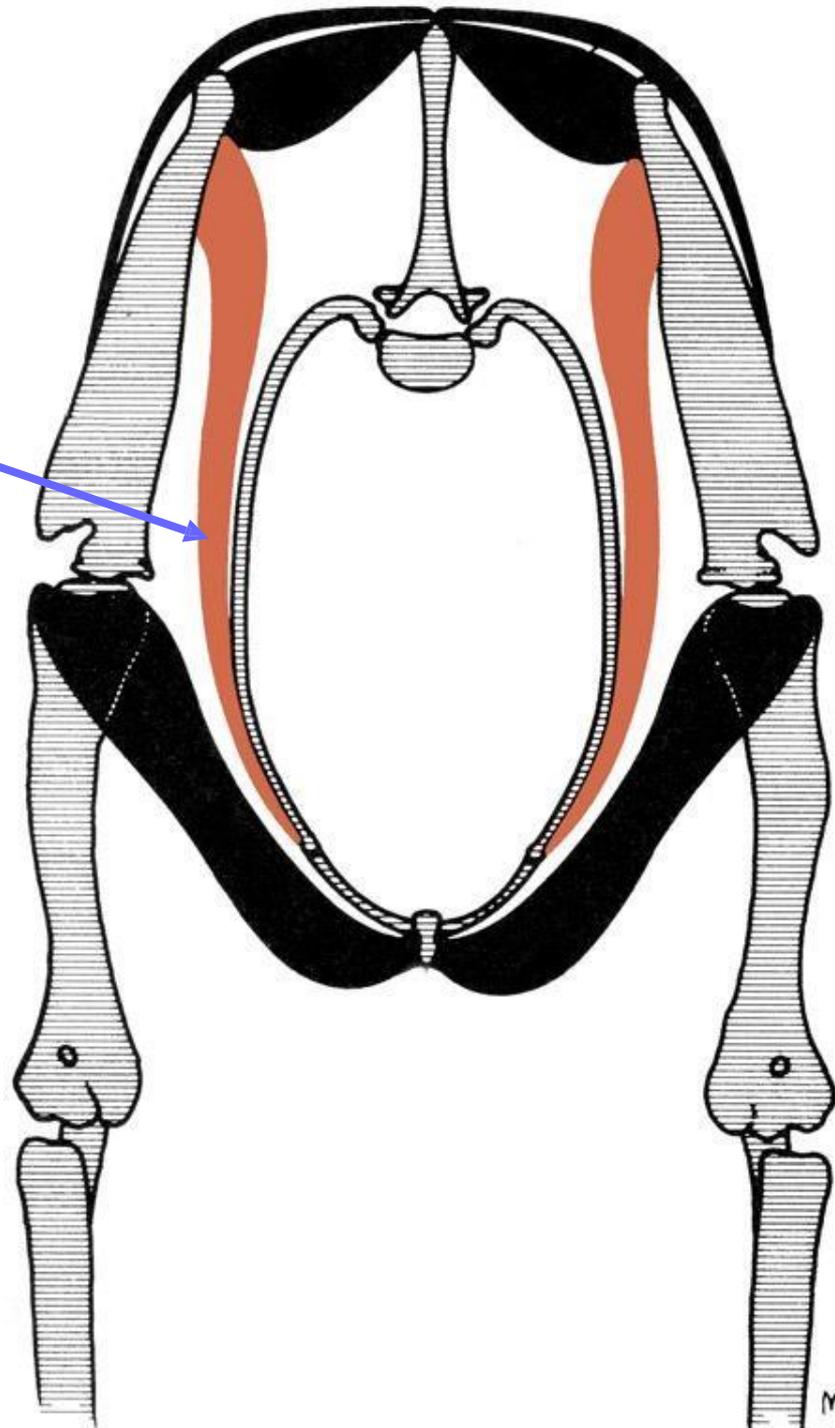

# Músculo serrátil ventral

## Parte cervical e torácica

**Músculo serrátil  
ventral é o  
principal  
responsável pela  
sustentação do  
peso corporal.**

**Muito tecido  
conjuntivo**

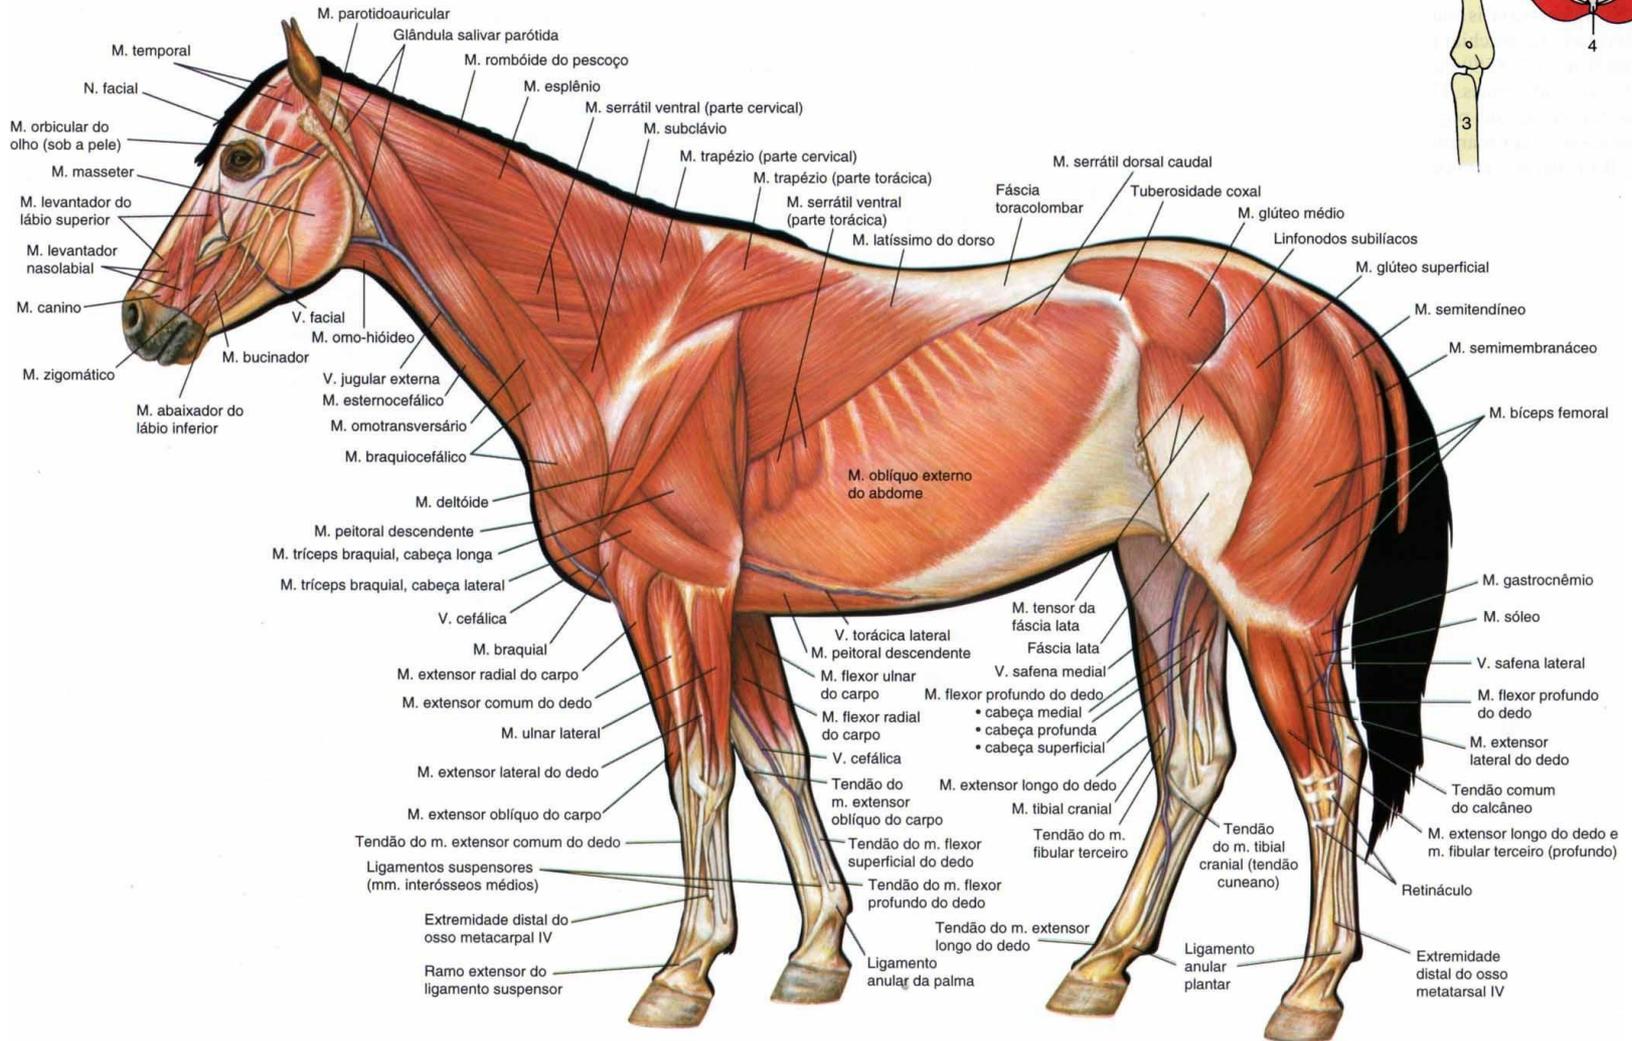

**Ruptura da  
sinsarcose  
(principalmente  
do serrátil  
ventral)**

**Muito raro**

# Músculo trapézio

## Parte cervical e torácica

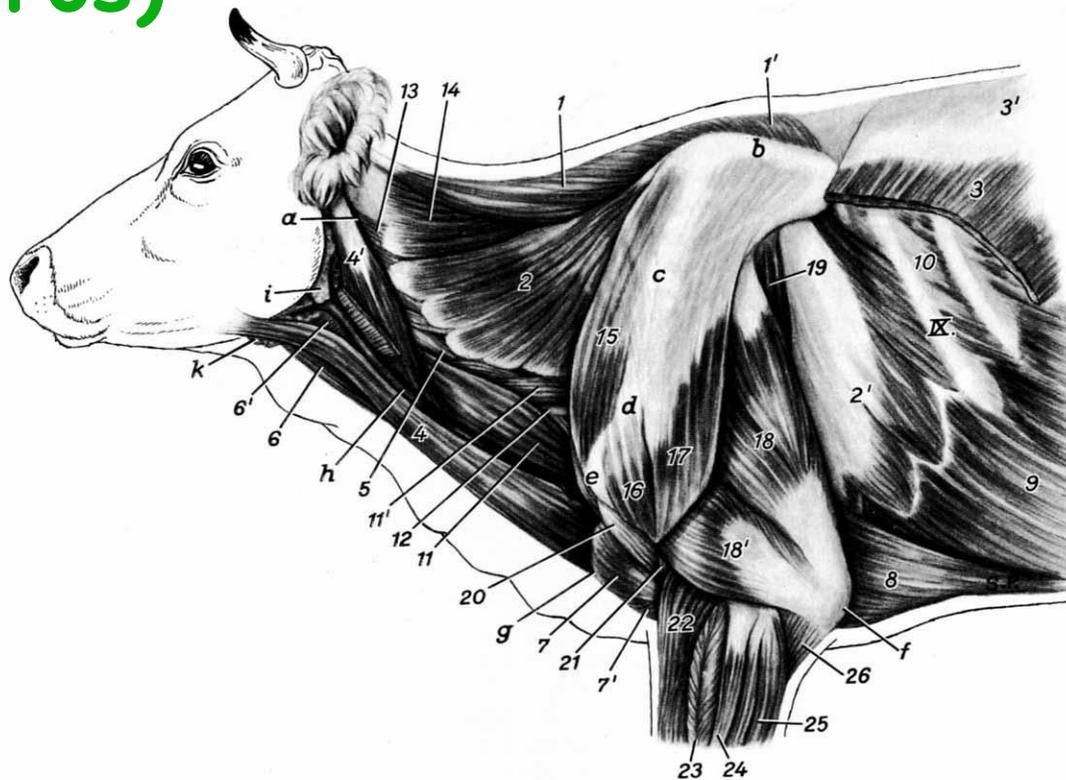

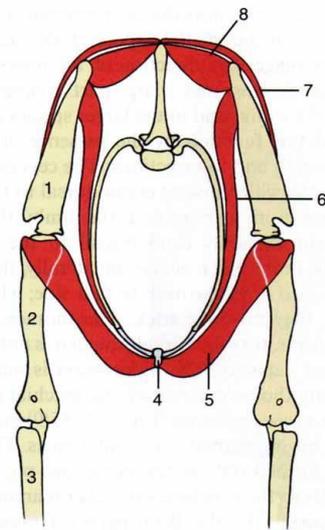

# Músculo rombóide

M. Rombóide torácico

M. Rombóide cervical

M. Rombóide da cabeça (porco e carnívoros)

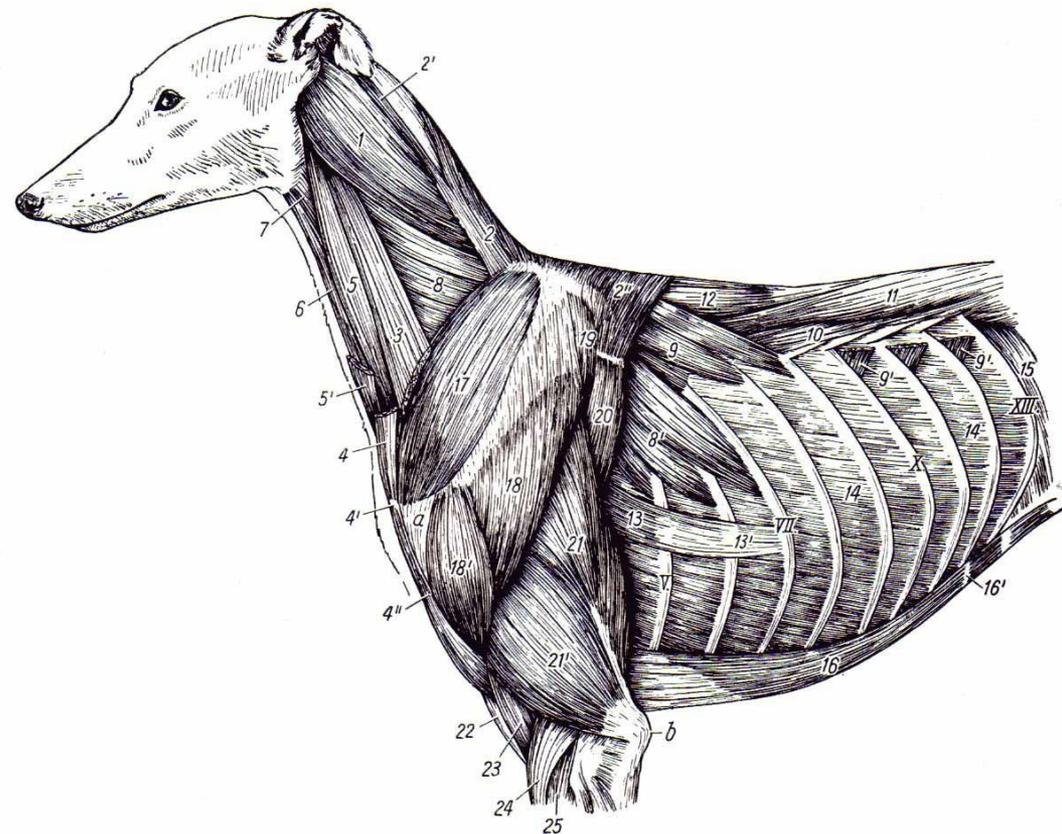

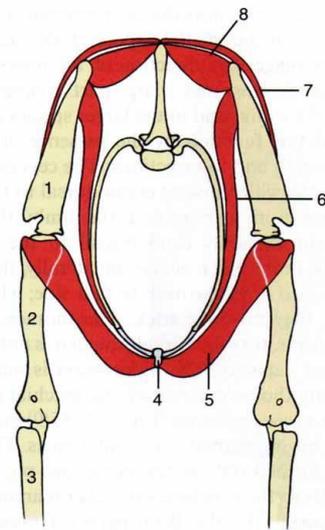

# Músculo rombóide

M. Rombóide torácico

M. Rombóide cervical

M. Rombóide da cabeça (porco e carnívoros)

# Cupim ou Giba

# Músculo peitoral

M. Peitoral superficial

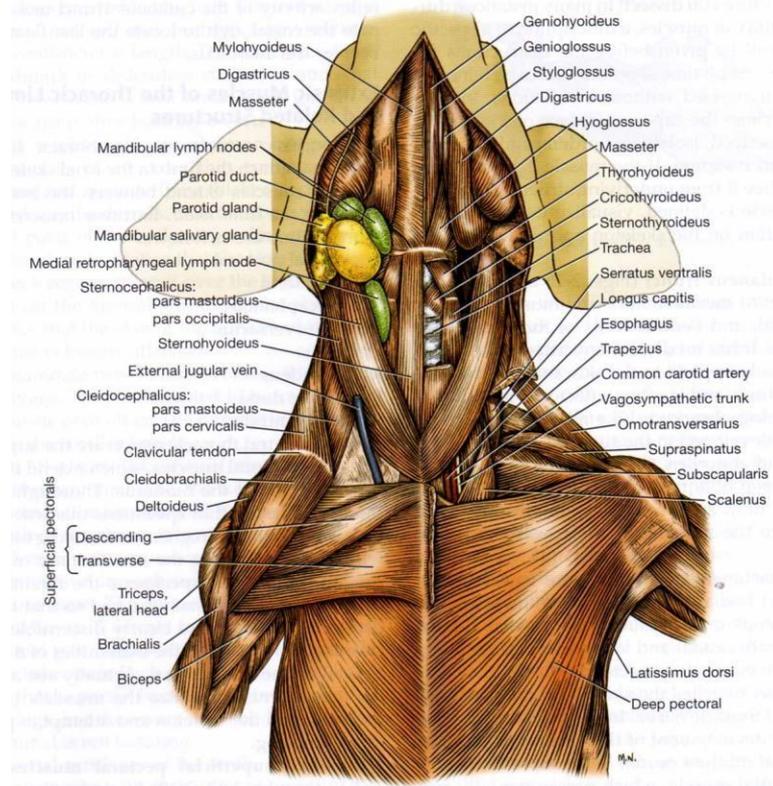

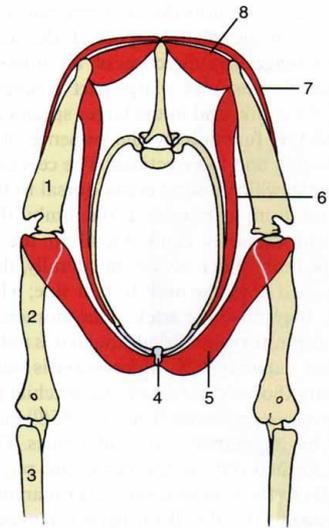

M. peitoral descendente

M. peitoral transverso

M. Peitoral profundo

M. peitoral ascendente

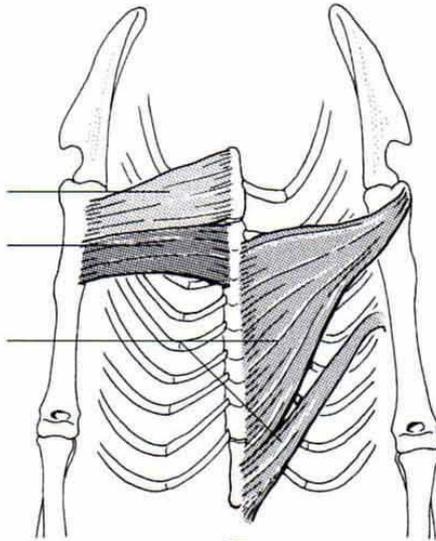

M. subclávio (exceto em carnívoros)

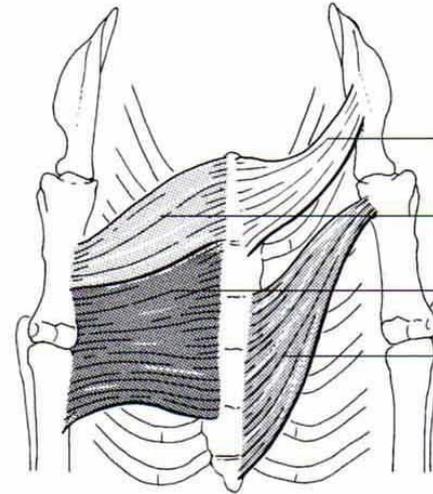

# Músculo peitoral

**M. peitoral superficial**  
M. peitoral descendente  
M. peitoral transverso

**M. peitoral profundo**

Cão

Suíno

M. subclávio

**M. peitoral superficial**  
M. peitoral descendente

M. peitoral transverso

**M. peitoral profundo**

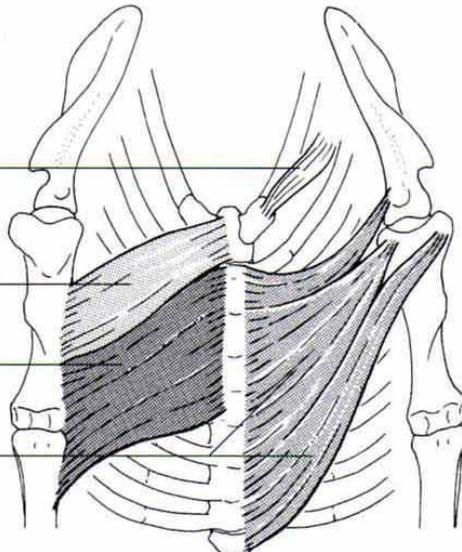

M. subclávio

**M. peitoral superficial**

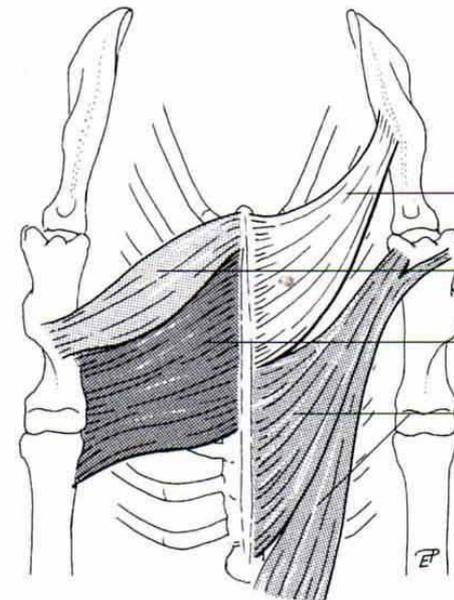

M. peitoral descendente

M. peitoral transverso

M. peitoral profundo

Bovino

Equino

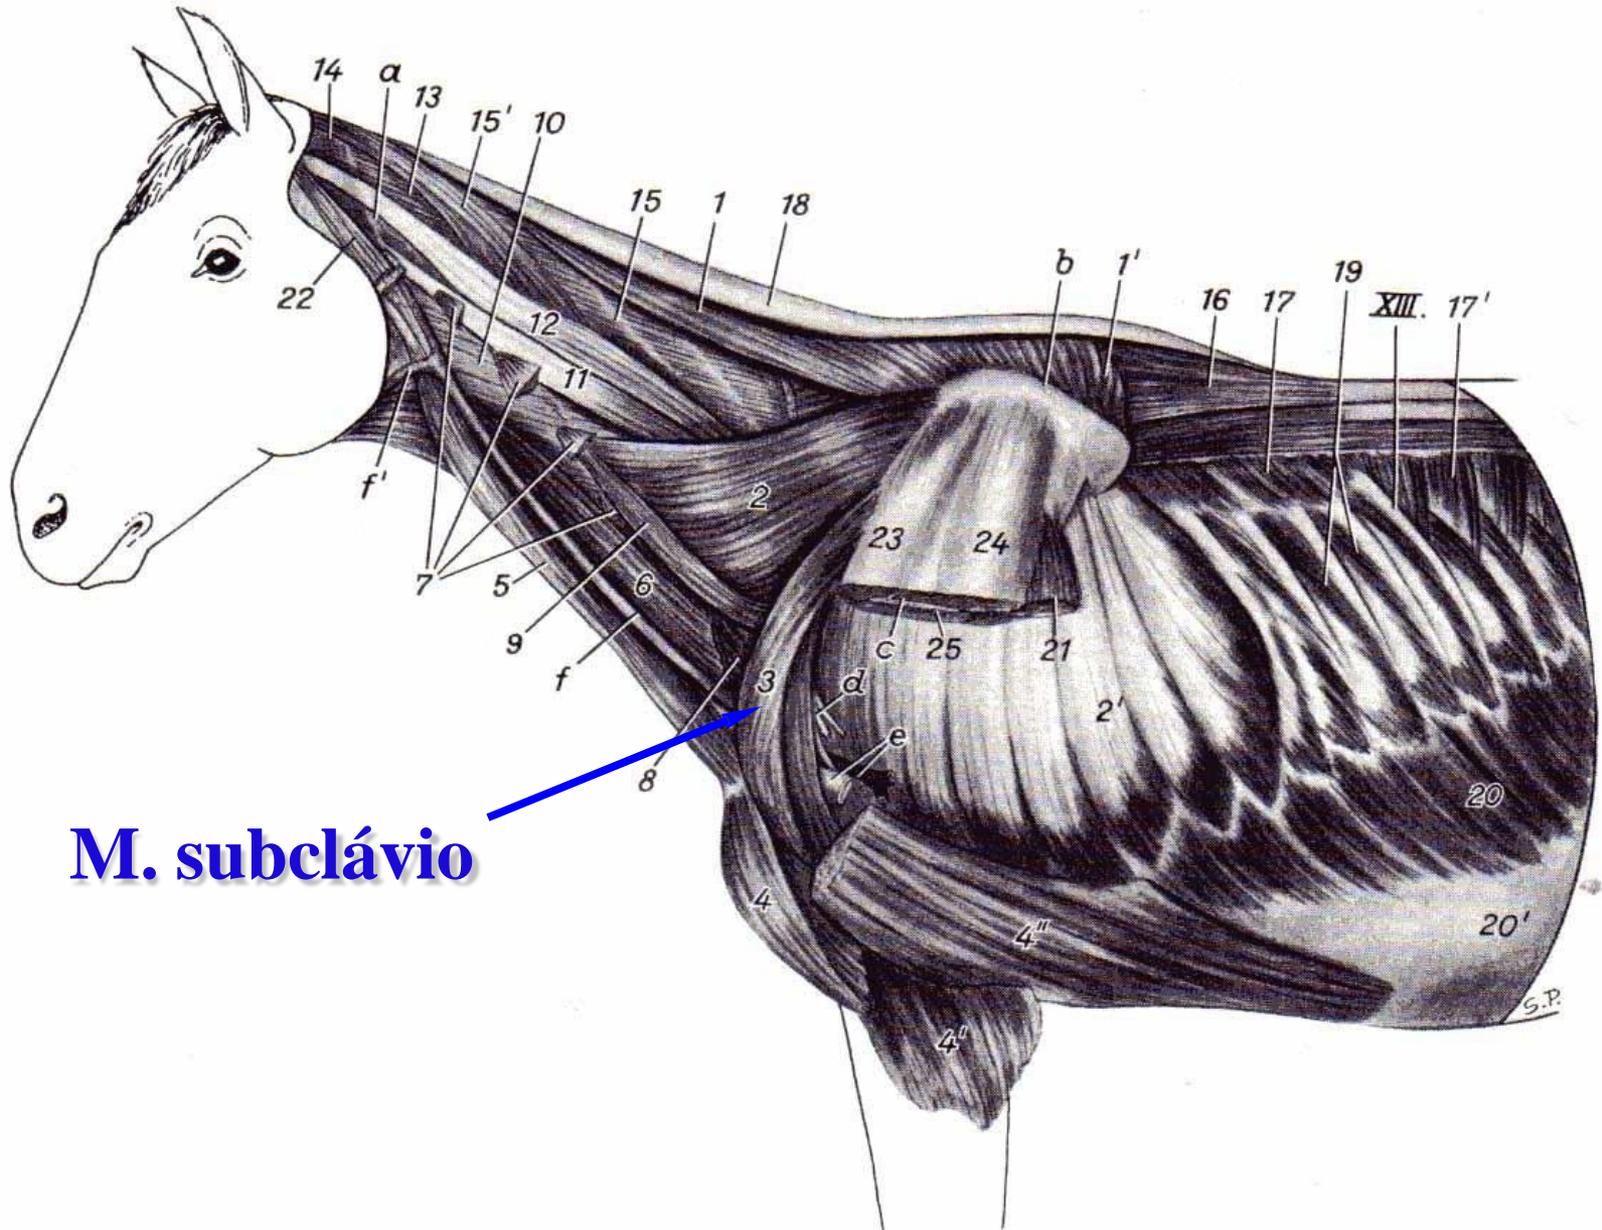

M. subclávio

**M. peitoral superficial**  
M. peitoral descendente

M. peitoral transverso

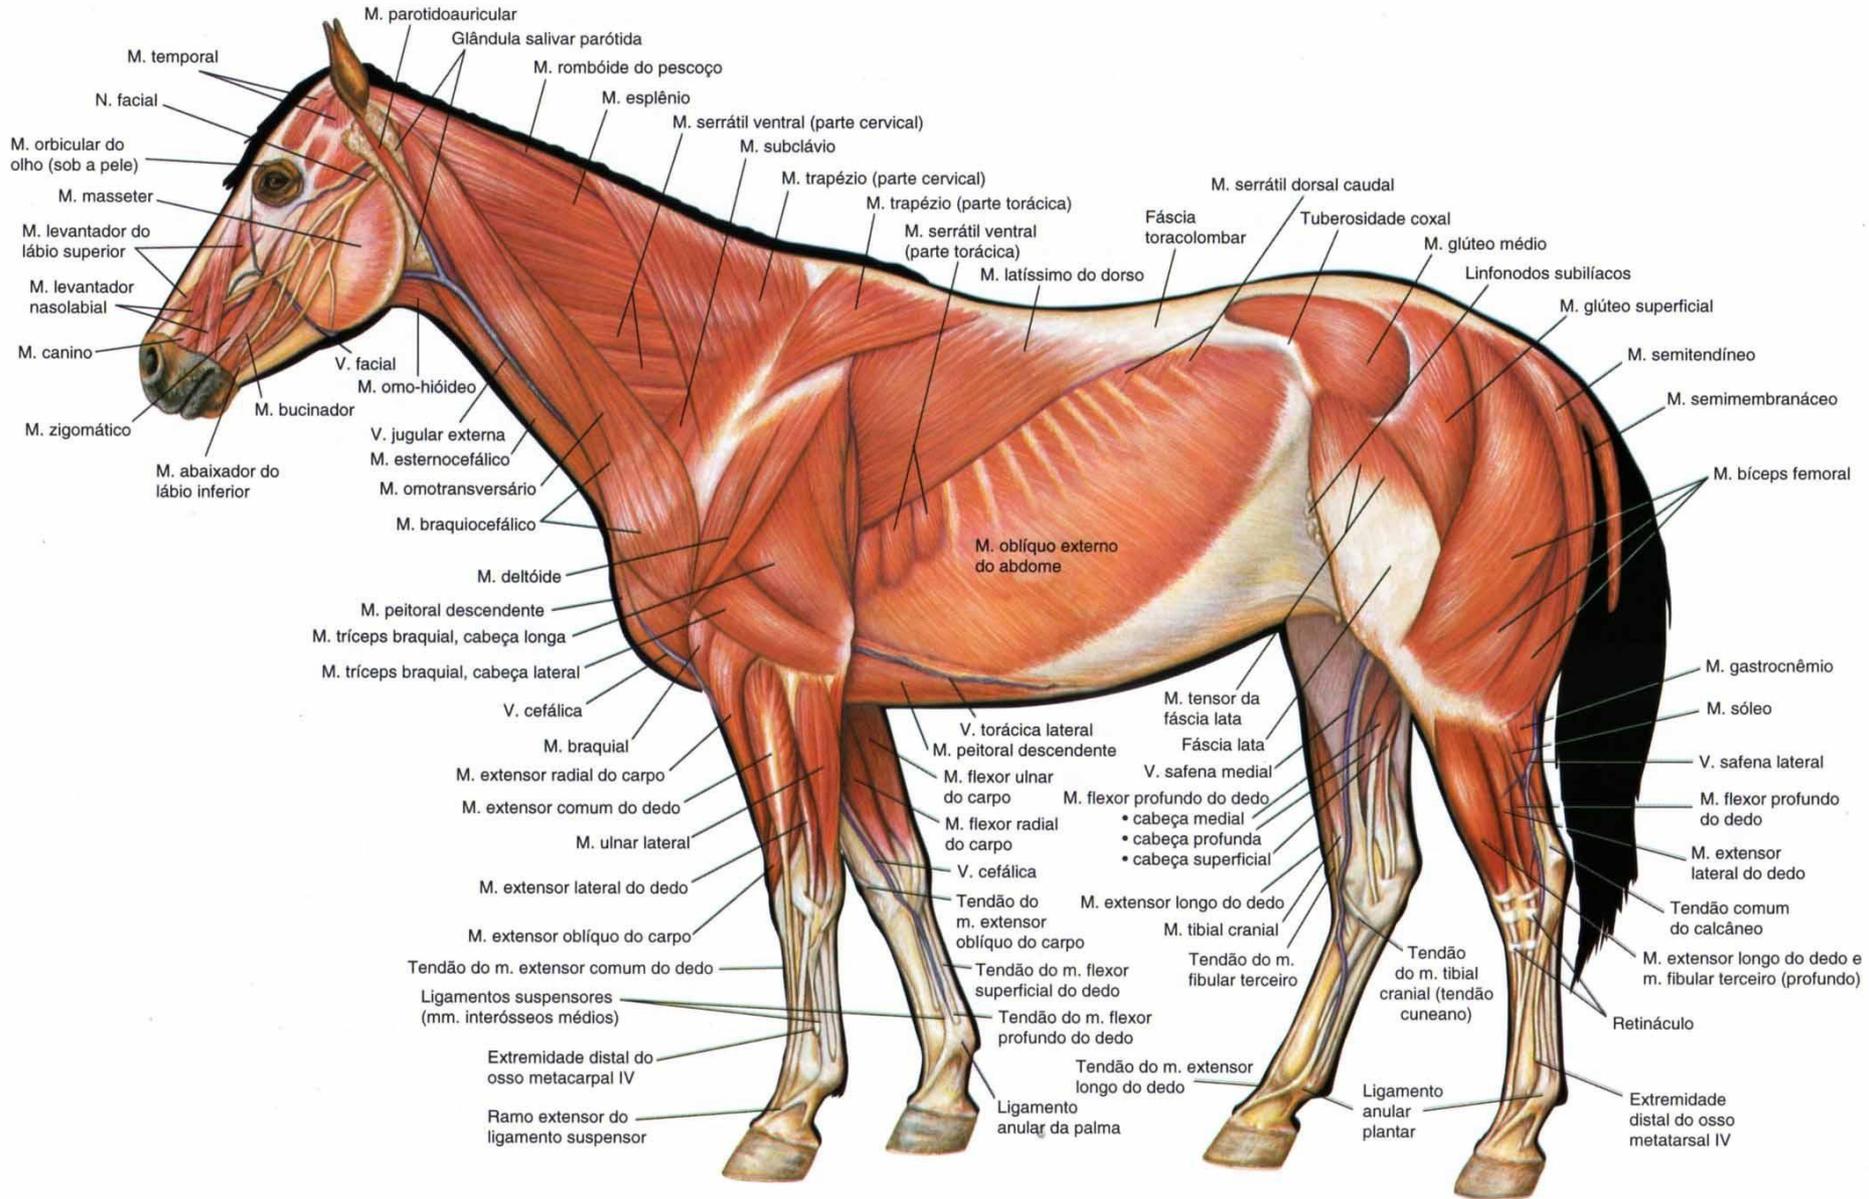

**M. peitoral profundo**

# Músculo peitoral

**M. subclávio**

# Músculo grande dorsal

# Músculo braquiocefálico

Intersecção clavicular

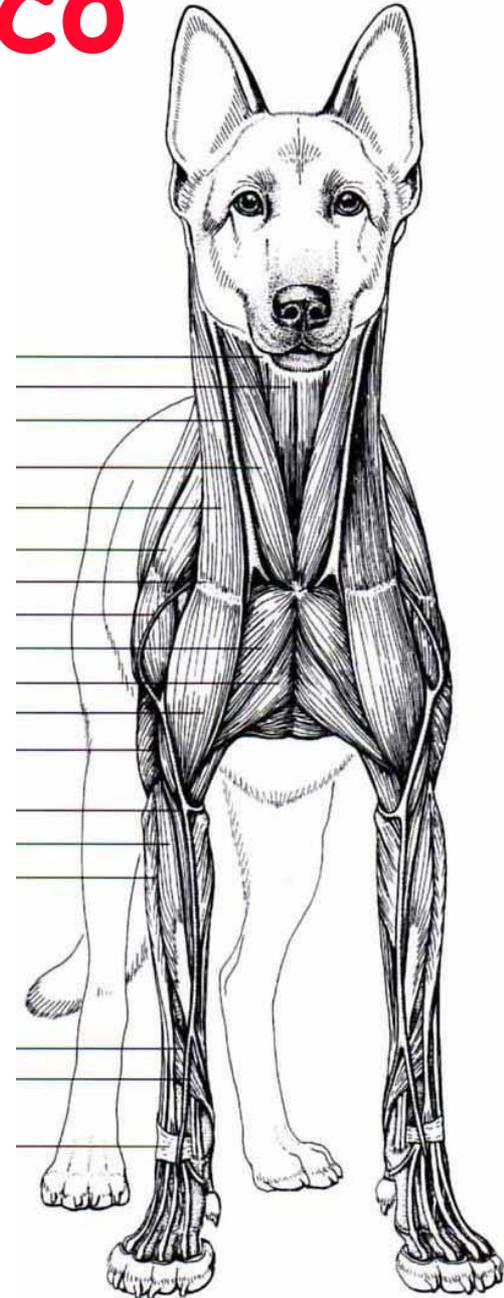

M. Cleidobraquial

M. Cleidocefálico

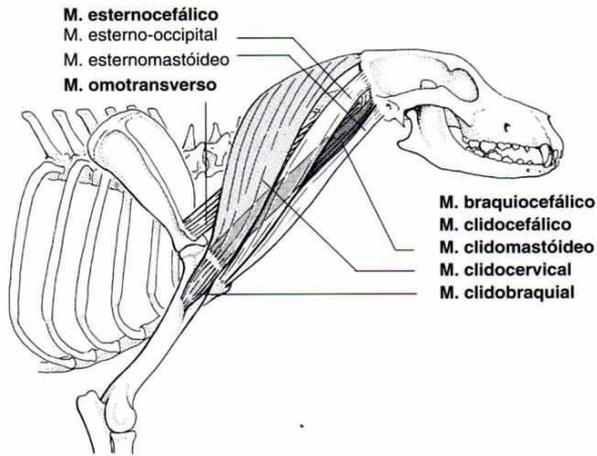

Parte mastóide

Parte occipital (porco e boi)

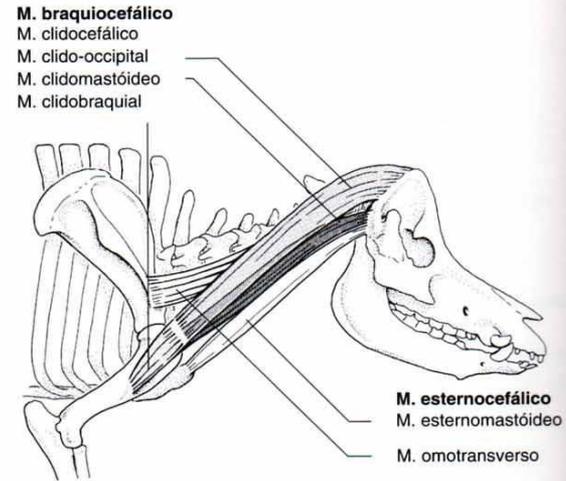

Parte cervical (carnívoro)

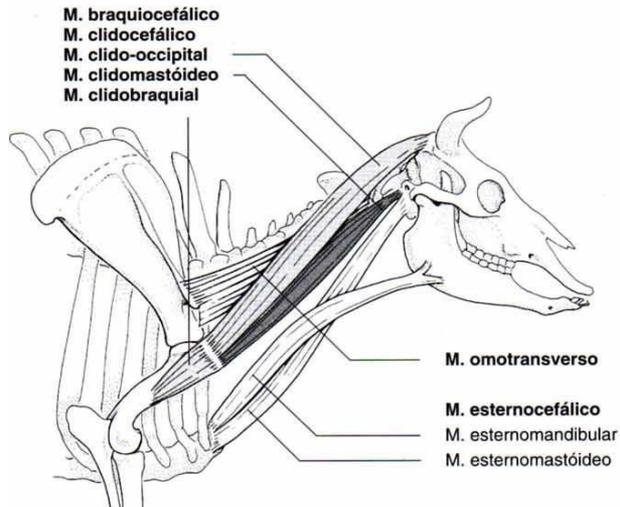

# Músculo braquiocefálico

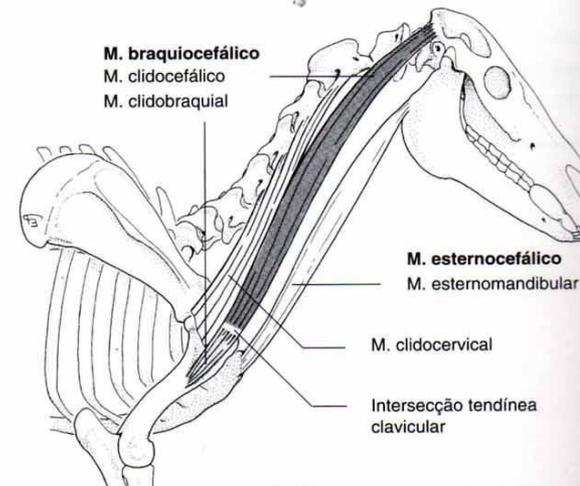

Cão

Suíno

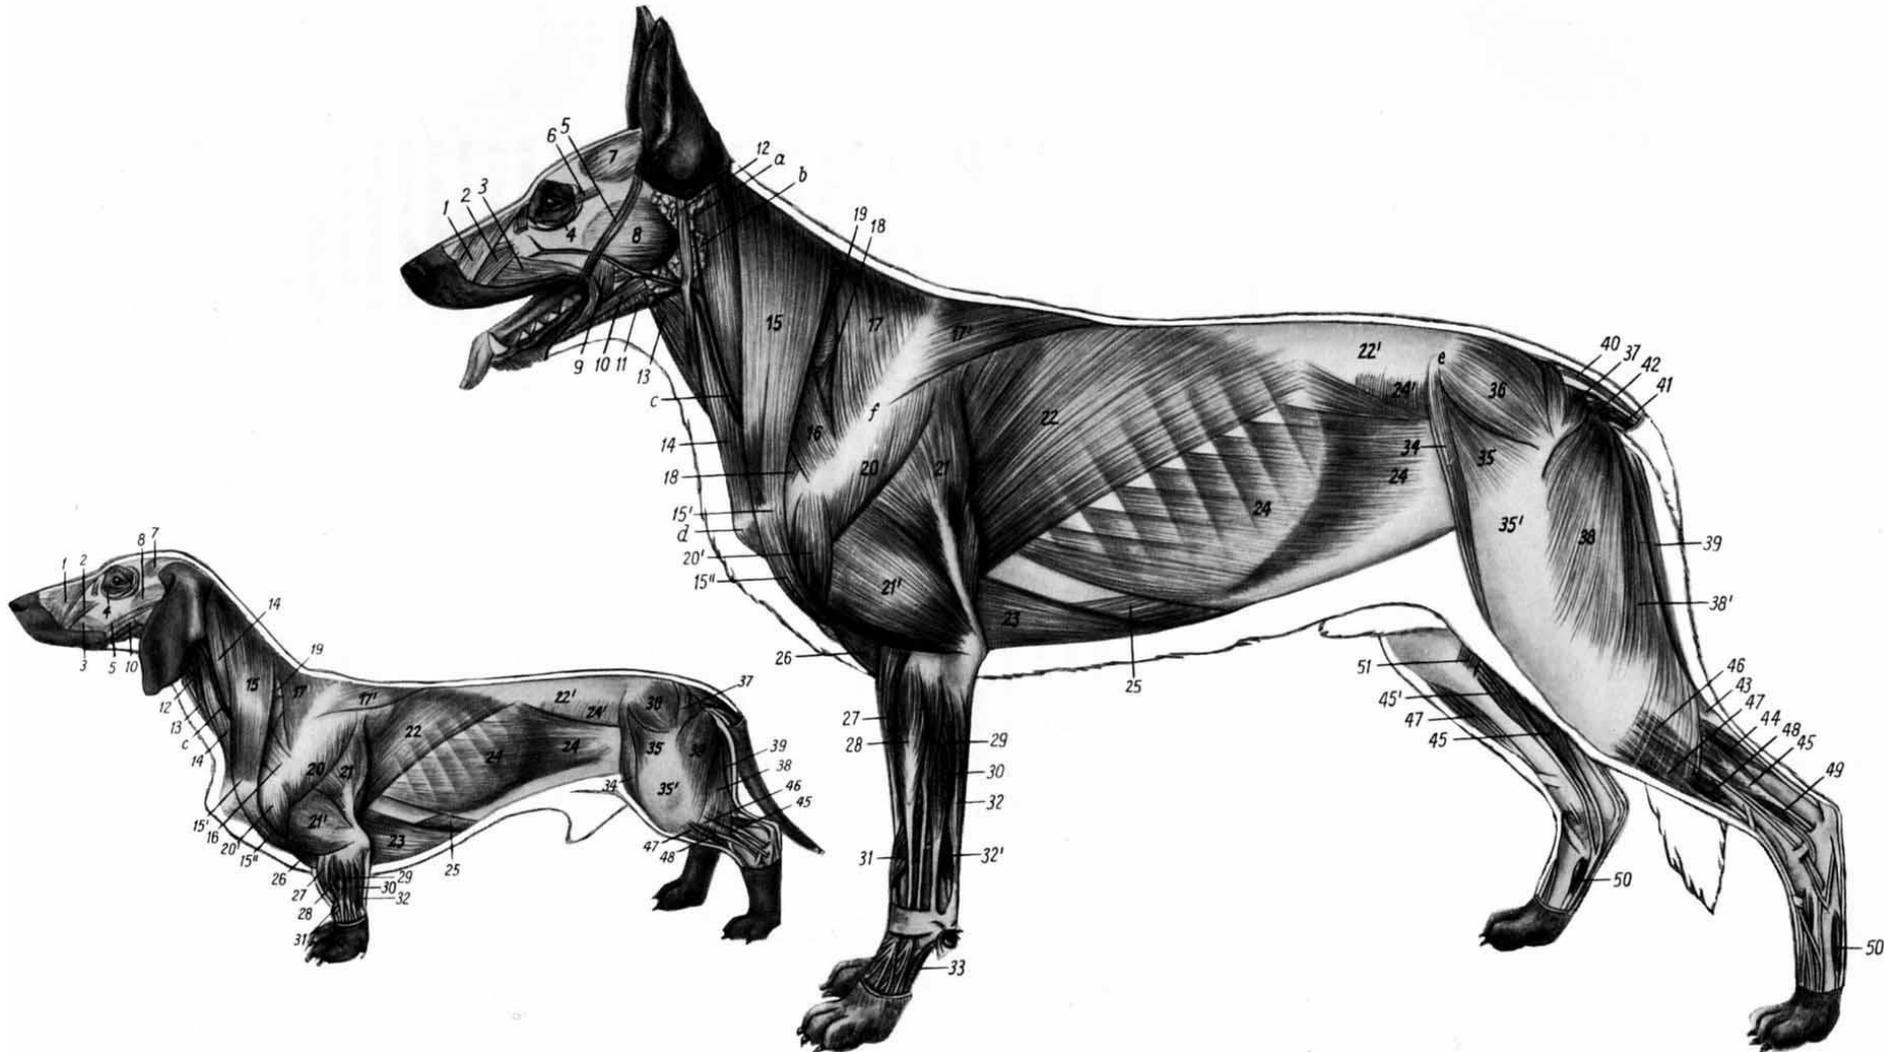

Bovino

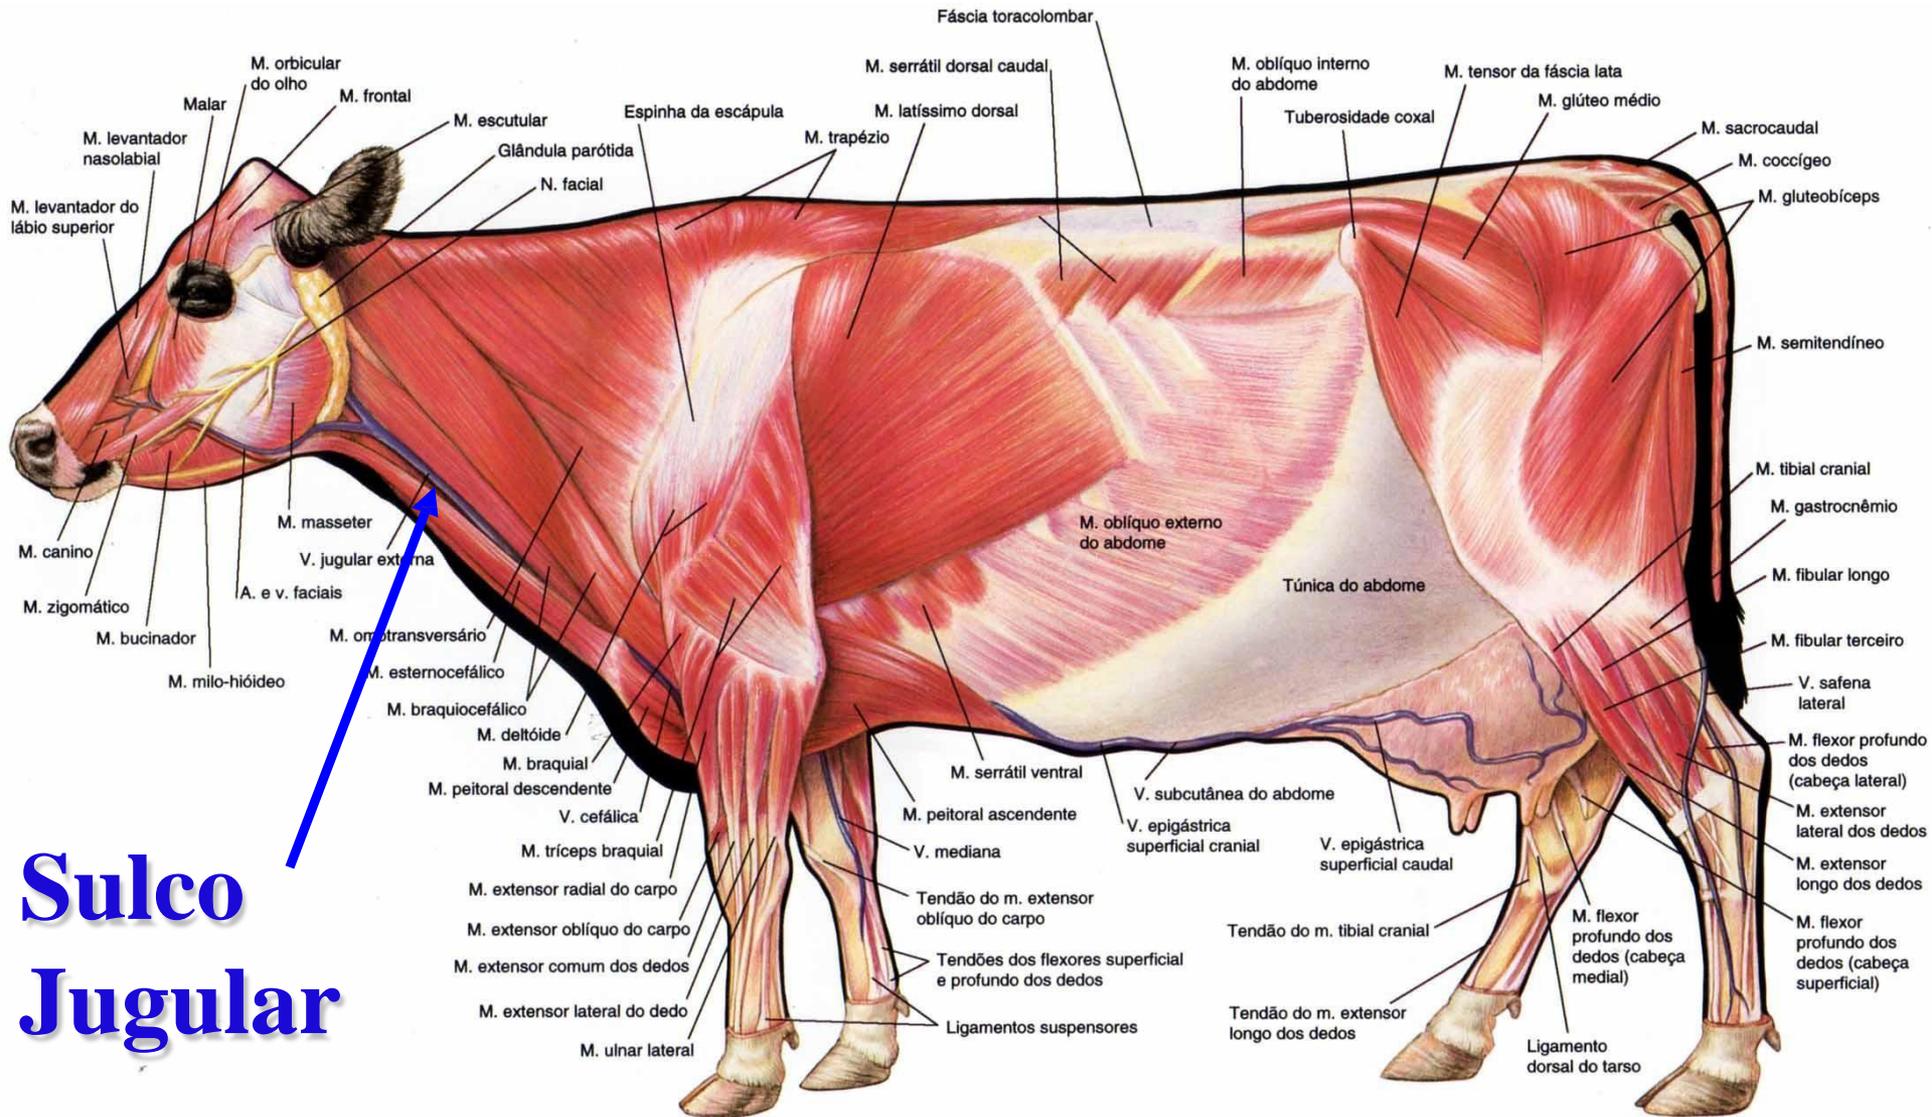

Equino

# Músculo braquiocefálico

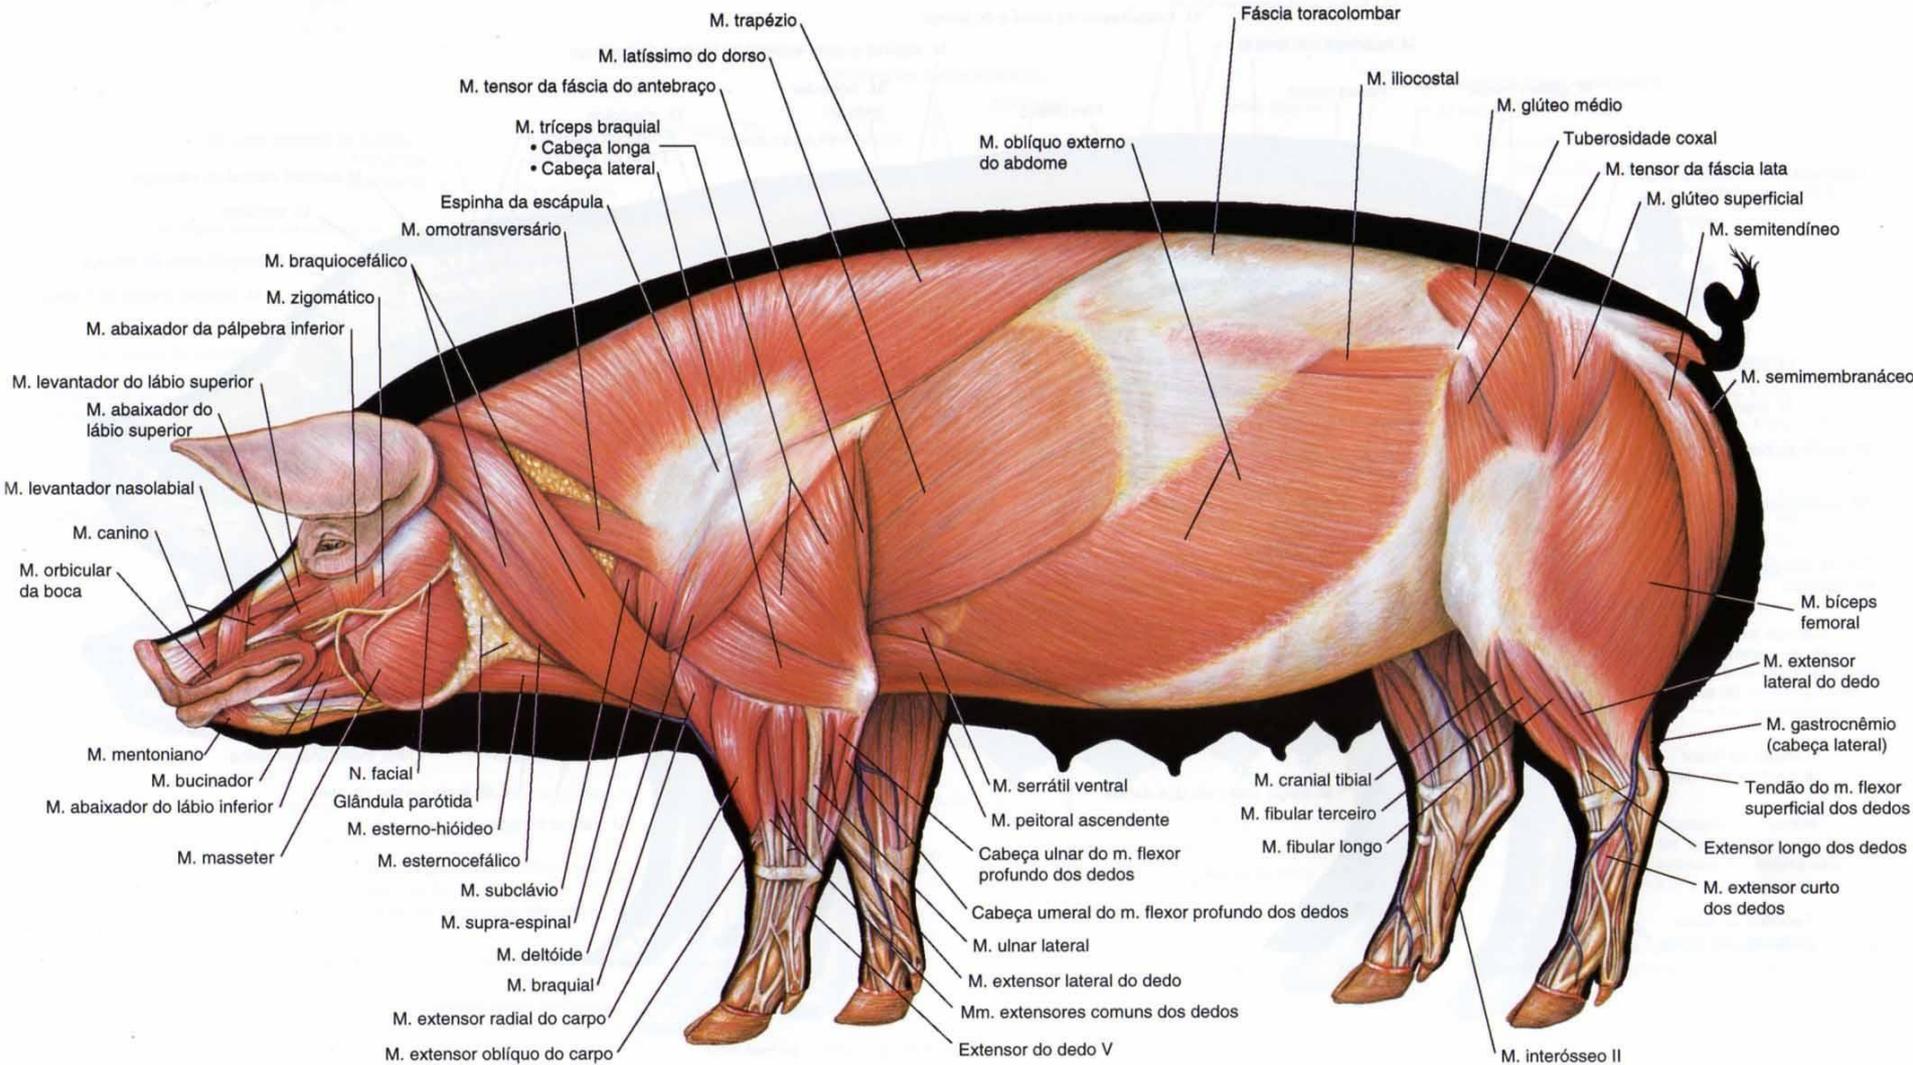

# Músculo braquiocefálico

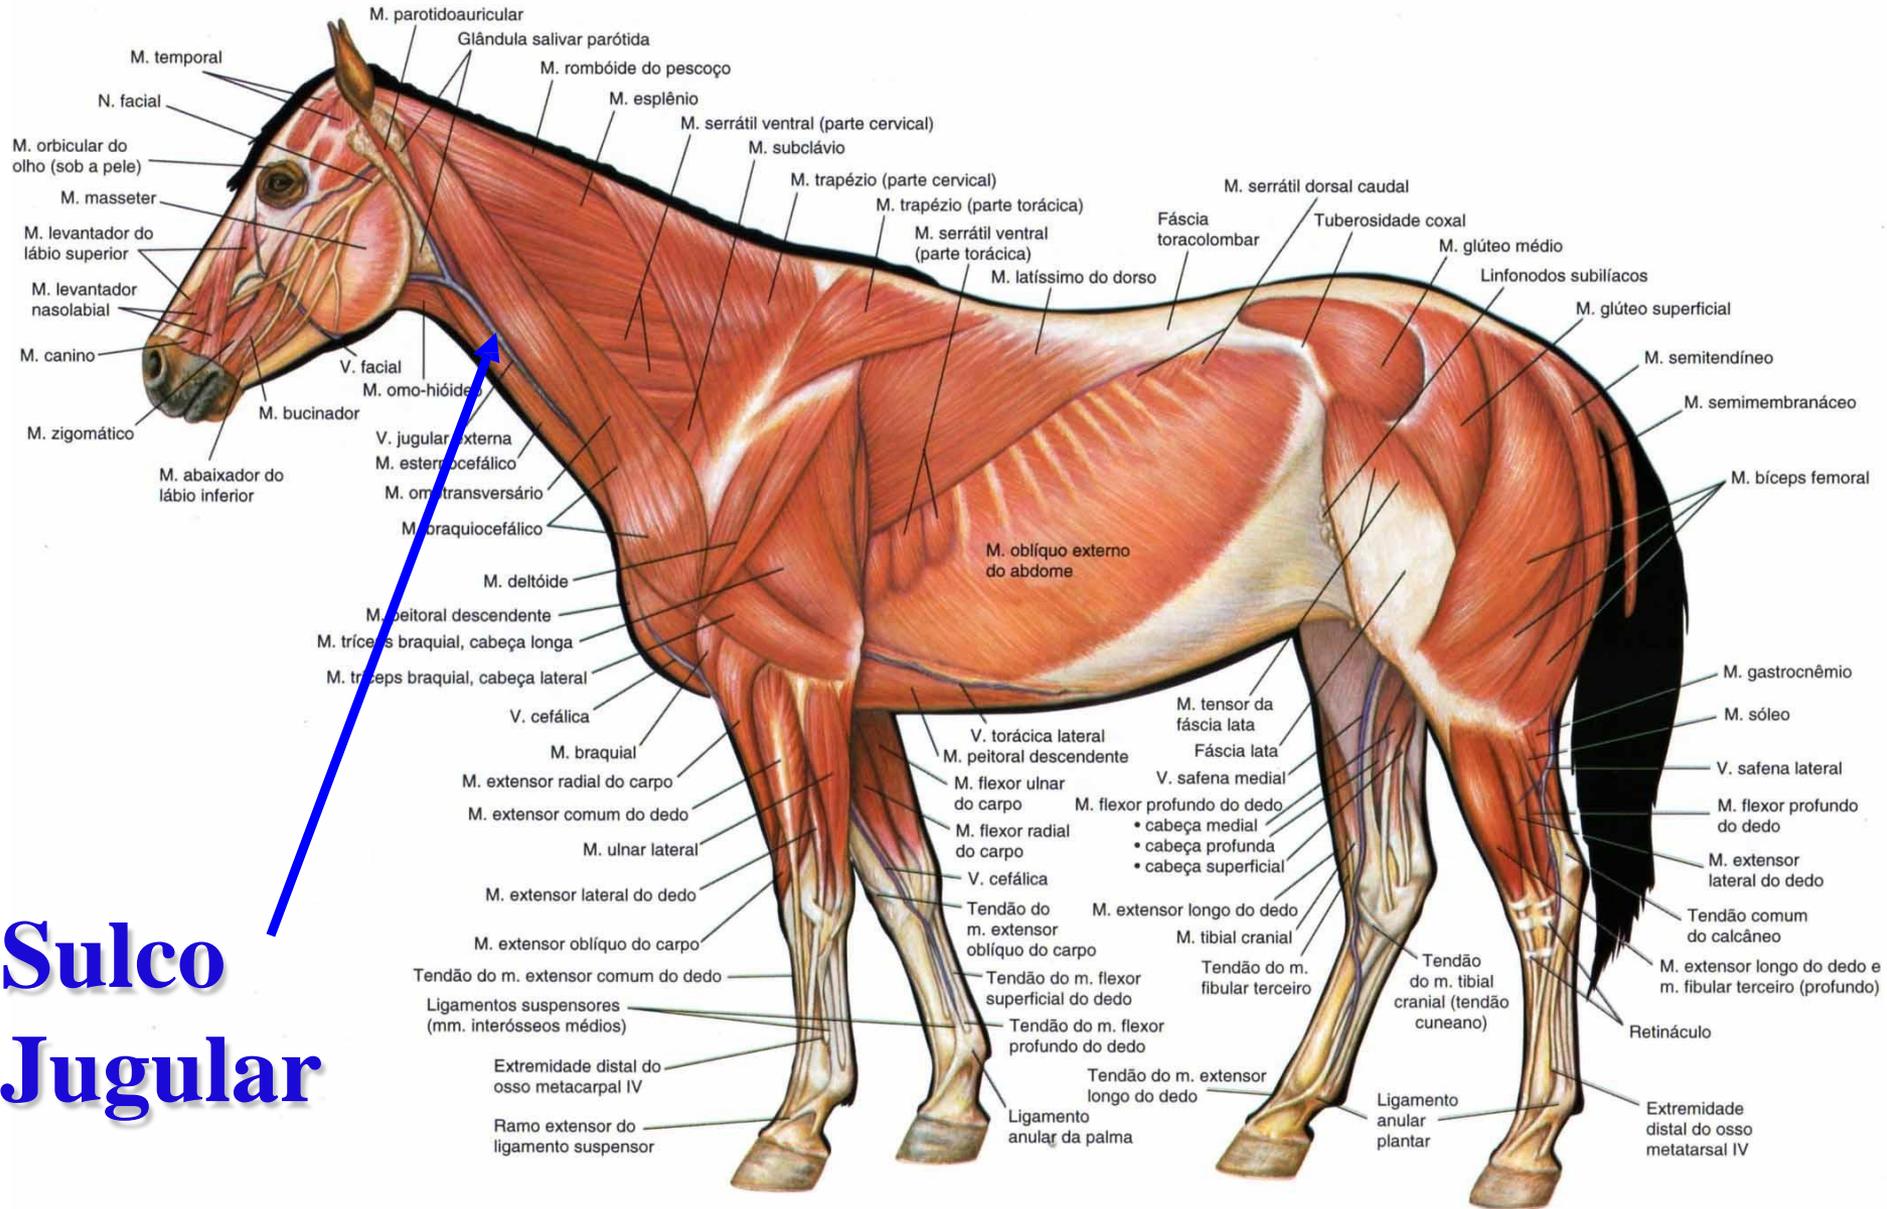

**Sulco Jugular**

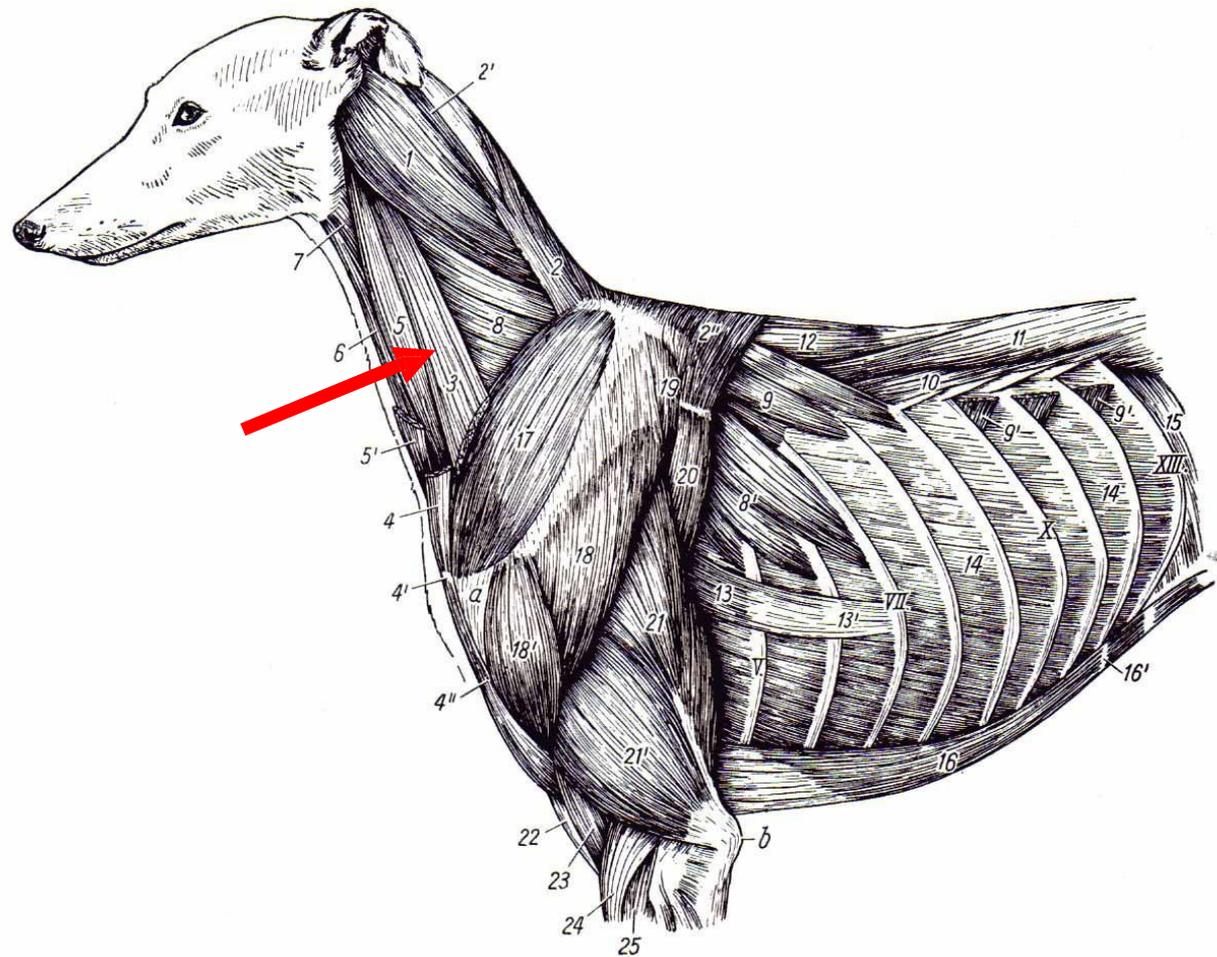

# Músculo braquiocefálico

# Músculo braquiocefálico

# Músculo omotransversal

# Músculo omohióide

Ausente em carnívoros

Importante para a deglutição
